Date of Service: \_\_\_\_\_

## PATIENT DISCHARGE REQUIREMENTS

For your health and safety during COVID-19, these are the patient discharge requirements. Licensing Regulations require our surgery center to ensure that all patients are discharged in the company of a responsible adult. To meet this requirement, you are asked to have a responsible adult (21 and older) available to accompany you home after your procedure. We encourage the responsible party to be present at the surgery center during your procedure. *The actual procedure time cannot be guaranteed as every surgery is different. Every patient is given the best and most appropriate care possible.*

We recognize that everyone cannot wait for a few hours while your surgical procedure is being completed. If your responsible adult is unable to be in the building within 10 minutes of speaking with a staff member, transportation via taxi will be arranged at the patient's expense.

Due to health and safety concerns, we are unable to accommodate additional waiting period. Thank you in advance for complying with this new policy and making the necessary arrangements for your care after the procedure.

Name of Responsible Adult: \_\_\_\_\_  
(will provide a ride home)

Telephone Number: \_\_\_\_\_

YES  NO This responsible adult knows that they must be at the surgery center within 15 minutes of being called once your procedure is completed?
